# HUSTLER

Limited Edition  
**377**

Produced in limited numbers, the Talon 37's legacy among the elite of offshore racing is unsurpassed. Legendary performance combines with handling unlike the typical catamaran to make the transition from racing to pleasure natural. Fitted as a pleasure boat, the 377 Talon will run in front at the poker run without sacrificing the ability to cruise with family and friends.

Form and function ... two design goals that are rarely brought together. The sculpted form of the 377 evokes images of high flying fighter jets. The aerodynamically styled deck, molded wind deflecting venturi and scoops to deliver air to the engines are as beautiful as they are functional. The 377 is a rare example of superior form and function finding each other in the same design.

Situated between the cockpit and engine space, the cabin is a model of restraint and efficiency. Comfortable seating for four, room for a porta potti and convertible seat backs allow for a cozy get-away from the sun or an overnight stay.

With the aid of the unique center sponson, handling is more like that of a v-bottom than a cat. Forgiving and lacking some of the nasty low speed deficiencies of traditional catamaran shapes, the 377 is a confidence inspiring hull that will allow v-bottom drivers to feel at home.

Spine tingling performance is always on tap, be it with the standard Mercury Racing or optional race bred power plants. The performance of the 377 Talon is unlike any other catamaran built today. Forget everything you thought you knew about catamarans and be one of the lucky few to drive a legend.
