HUSTLER

Performance Yacht

50

Hustler's first boat with multiple steps, the 50 has set the standard for stepped bottoms since hull one. Awesome performance potential coupled with luxurious amenities put the 50 in a class by itself.

Cockpit upholstery developed specifically for the 50 Performance Yacht hugs you securely at any speed. The padded hatch, molded swim deck and concealed ladder make the seas your own private swimming hole. Handles in all the right places allow you to move freely when you need to and stay put when you want to.

Plush leather couches that hide storage compartments behind them, flat screen televisions, Corian counters, mood lighting, the list goes on. Hardly the list of amenities you'll find in the typical speedboat. Your day trip or weekend away is perfectly comfortable in the Hustler 50. Headroom of 6' in the cabin allows for a true standup head and shower, larger than you would think possible.

From stock power though custom race power the same rigging is used, preventing unwanted surprises at sea. Control and helm layout is a lesson in priorities, providing a clear picture of the state of the engines without distracting you from the task at hand ... going fast.

Vacuum bagging, Kevlar, carbon fiber and foam cores aren't just flashing marketing terms for Hustler ... every boat is built by hand one layer of glass at a time. Our skilled workforce consistently builds bulletproof boats, day in and day out. Running comfortably when other boats are struggling is the hallmark of a Hustler hull.

Arriving at the dock in a 50 Hustler is a unique experience. Produced by hand for the most discriminating boaters, the 50 Performance Yacht is without peer.
